HICKMAN, KENTUCKY, THURSDAY, SEPTEMBER 17, 1914

Number 13

Y. M. B. L. ELECT OFFICERS AT LAST MEETING.

The Young Men's Business League held its regular meeting in the Courier office Thursday night. Among other things, officers were elected as follows:

Frank Van Burries, Jr., President
W. C. Spear, V. President
Boyle Jurney, Secretary
L. P. Sexton, Treasurer.

The retiring secretary was Alvin T. R. Powell, who did not consent to be re-elected, claiming that he had his hands full of other business and could not devote the necessary time to duties of the office. Mr. Van Burries was elected over his vigorous protest. The office of secretary and treasurer were separated in order to take that much off the secretary's hands. After the secretary will be a small salary.

Members of local interest discussed at the meeting were: This season of road prizes. A committee of H. S. Sloan and W. C. Spear and number of prizes to go to the county road commission west of the M & O road.

The league also went on record behind and lend all possible aid to the truck and heavy movement. This is now under way, with over a hundred acres already pledged. Expect to guarantee the road facilities and to have a larger station at Hickman. Matter of unjust and its "commodity" freight will be taken up as soon as cases can be had to work. This applies to commodities such as flour, sugar, potatoes, which come in in carload quantities and business men requested to furnish the information by article, point of origin and amount of freight paid. This is on basis to work from. Illustration: take a carload of wheat. The rate from Minneapolis to Cairo is 14¢, to Hickman only 4¢ more here. On this account, our two grocers cannot compete with Cairo, and they can save money by shipping to and reshipping.

After the organization will meet Friday instead of Thursday. H. L. Amborg and Lebovitz were named as a committee to secure a temporary place for the league. October, a get together banquet probably be pulled off from the league's base. The Courier would add that organization is worthy of support from Hickman's interests than it is. The matters which are out through this organization are for the benefit of the town and it isn't just for those who are willing to assist work and foot all the more of our business men. If you don't give to a active interest in the at least contribute a dollar toward its maintenance. You will then be doing in your just share. If more should be accounted this year than to put the growing business over for next season, the club has with many times it cost and join?

Merchants, Business Men and citizens of Cairo, Illinois, are making extensive preparations to receive out-of-town visitors to be on Tuesday, September 21. The occasion is to be the opening of all kinds of

The great treasures of the Bank of France have been moved from that city. They consisted of three hundred and twenty-two tons of gold and three thousand tons of silver. A hundred and thirty-two railway cars were required to carry the load.

The young men home from college have been helping dad by swinging the pretty summer boarders in the hammock.

Mrs. Joe Binford has returned from Ripley, where she was called on account of the death of her aunt.

WEST AND WRIGHT BUY BOTH PICTURE SHOWS.

A deal was consummated Saturday whereby J. O. West and Chief of Police Jim. Wright, became joint owners of two of Hickman's leading motion picture theatres—the Crystal, established and owned by H. N. Cowgill and the Gem, established by Geo. Bouck and wife (the latter deceased) and owned by N. R. Holcomb, the administrator.

Messrs. Wright and West took charge of the shows on the day the deal was made, with the latter looking after the business management. He has had considerable experience in the movie business, until recently having owned and operated the Rex Theatre at Fulton, and previous to that venture he ran the "star" Theatre in Hickman. This show was later sold to Mr. Cowgill, of the Crystal. J. O. West has always made a success of the business and it is safe to predict that the two popular shows acquired will be no exception to the rule. No town in this section has better pictures or any more of them than the Gem and Crystal. It is the avowed intention of the new management to keep them right up to the high standard maintained by Messrs. Cowgill and Holcomb. For the present Messrs. Wright and West have decided to run the Gem on Saturday only. The Crystal will be run as heretofore. All serial pictures running at the Gem will be shown at the Crystal.

On Friday, Oct. 9th, a new serial "The Grey of Hearts" will be started and installments will be given each Friday night thereafter until complete. This is a very fascinating story with lots of thrills and actions. On Thursday, Oct. 8th, the Courier will run an installment of the story and continue it right along with the showing of the picture. It will be good reading even if you do not see it at the movies. But if you want to realize more from a story than you ever did before, read the story every Thursday and see it played Friday.

CAPT. L. D. TULLIS DIES OF PARALYSIS.

Capt. L. D. Tullis, a citizen of Hickman and a well known Mississippi river pilot, died at his home in this city Saturday morning about seven o'clock as a result of a stroke of paralysis occurring the first of the week. He was unconscious several days before his death. Funeral services were conducted at the family residence at 2 o'clock Sunday afternoon by Rev. R. M. Walker. Burial services were in charge of the local W. O. W. lodge, of which deceased was a member, with interment at the city cemetery.

Mr. Tullis was close to 62 years old. He was born in Iowa, but had been a resident of Hickman for many years. In the days of the old Anchor Line supremacy, Capt. Tullis was a pilot on one of their boats. Later he worked for the Lee Line people, but left them to take charge of the towboat John S. Summers. He had been in the employ of her owners for the past 20 years.

A wife and three children survive Mr. Tullis.

His reputation in this community was above reproach and he possessed a large number of friends who mourn his departure.

Representative Hobson introduced a resolution proposing that President Wilson call a special assembly of delegates to the third international peace conference which was to have met at The Hague, in Washington, "as soon as practicable," to attempt to end the European war. It is proposed that afterward a session be held in San Francisco in 1915. An appropriation of \$150,000 for expenses was proposed.

A red-hot local option fight is on in McCreckin county. Although Padonah is decidedly "wet," the opinion prevails that the rural vote will swing the entire county into the dry column.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Suffrage Worker Here Last Week

Last Thursday night Miss Lily R. Glenn addressed a suffrage meeting at the home of Mrs. S. M. Hubbard, and a number of new members of the association were enrolled.

She told of the need of extending the ballot to working women so that they may protect themselves in industry, securing a living wage, an eight hour working day and proper sanitation. She says that where women vote they have passed laws giving mothers equal rights with fathers over minor children, mother's pensions, eight hour laws for working women, and in every suffrage state the age of consent for girls is 18 except in California, where it is 21.

On Friday night at the Court House, Miss Glenn spoke again, being introduced by Atty. J. W. Roney.

Eleven more men and women signed membership cards, making a total of 76 names to Fulton county. Membership does not end for any reason and all who live in Fulton county are invited to join. The state president is Mrs. Desha Brockmire, of Lexington. While in Hickman Miss Glenn was the guest of Mrs. S. M. Hubbard. She has been sent to Kentucky by Mrs. Modell Metcarmick, chairman of the Congressional Committee of the National American Woman Suffrage Association and a thorough Southerner by birth, has had an interesting experience in the counties in the Great, Phillips, pines, Handlun and elsewhere. Her father was a native of Kentucky. While at Fulton she addressed the Teachers' Institute. She left Monday for Mayfield.

No town in this state or in any other place for that matter, can expect to thrive and prosper without the concentrated efforts of its citizens and the judicious expenditure of money. The towns in our state today that are prosperous are the ones that have donated liberally to enterprises which employ labor. Thus it is and always will be that the liberal and broad gauged town will thrive while the tight fist ones are struggling for the necessities of life.

When you get Reeves' Men you have the best that is made. Ask for it.

THE TOBACCO CROP.

The recent rains appear to have done wonders for the tobacco crop in Kentucky. Some of the counties are reporting that the crop will be the best for many years, so far as quality is concerned. That being so the growers ought to be glad that the drought reduced the acreage. Too many of the Kentucky farmers have been sacrificing quality in the interest of quantity in the past. A small crop of good tobacco is worth more than a large crop of poor tobacco. If the farmers take the lesson to heart the drought will not have an unmixed evil.

The Old Standard Grove's Tasteless Chilli Tonic is equally valuable as a General Tonic because it contains the well known tonic properties of QUININE and IRON. It acts on the Liver, Drives out Malaria, Enriches the Blood and Builds up the Whole System. 50 cents.

A number of good stories have developed as a result of the recent drought in Kentucky, but an Anderson county farmer has captured the climax by telling how a dozen of his chickens were scared to death by ruin.

The drug market is entering the most uncertain condition since the civil war; prices are changing almost hourly, and quotations for many drugs and chemicals of foreign origin are practically nominal. The present war disturbances have occurred at a very inopportune time for this country, as stocks of many important drugs here were very small, and consumers have been buying only for immediate needs. The practical tying up of the transatlantic ships of belligerent nations has made it mostly a gamble as to receipts and shipments, this occurring just as the movement of new crops from both sides of the ocean was beginning. A further and more serious factor in prices is the difficulty of securing exchange and discounts on bills of lading, banks abroad refusing to accept even the best commercial paper and demanding specie settlements.

It is true that a few of our business men do not believe in advertising for the simple reason "it does not pay." We don't fall out with a man on account of his belief, but we do want to ask this question: "If it does not pay, why has the world not found it out years ago?"

Invigorating to the Pale and Sickly.
The Old Standard general strengthening tonic, GROVE'S TASTELESS CHILL TONIC, drives out malaria, cures the blood and builds up the system. A true tonic, for adults and children. 50c.

A good many editors are said not to know much says an exchange, but they know a lot of stuff that they dare not tell. They know who drinks and they know the ladies who deviate from the straight and narrow path of rectitude, and the boys who smoke in the alleys, and dark places, and the girls who are out onto riding till the roosters crow for daylight. They know the fellows who can't get trusted for a tobacco snuff full of salt. They could guess at once why some fellows are as they are and they can guess closely what they do to make them so. They know enough to make one of the red hottest rip snorting, high-geared, triple action, chain lightning editions you ever read, but they also know it is best for the community and themselves to let the law take care of humanity's development and publish only such news as will do to read in the house.

Among other indictments the grand jury in session at Union City for the September term of circuit court returned an indictment against Frank Dietzel for murder in the first degree. The particulars of his alleged crime is well known to our readers.

Fiscal court will meet in regular session at Hickman on the first Tuesday in October.

LUTHER SISK KILLED. BODY FOUND MONDAY.

News was received here on Monday night of the horrible death of Luther Sisk, who resides between Three States and East Prairie, Mo., alleged to have been killed on last Thursday by Henry Beshers and left in the woods to the hogs and wolves, the body not being found until Monday by a posse of six who were scouring the country for him. Alex Barnes, of this city, found the body in the edge of a swamp at what is known as Eagle Nest Cypress. The body was in a horribly mangled and mutilated condition excepting for the clothes, which were almost torn off. A hog was eating on the body at the time it was found. As wolf hair was found on him they were sure wolves had also been eating on him.

Several feet from him lay his shot gun. Through the back of his head was a shot gun wound, the brains having been shot out and were gone.

It is said that on Thursday Sisk and Henry Beshers started out squirrel hunting and Beshers returned to Sisk's house, where he had been boarding, and told Mrs. Sisk that her husband had gone across the river to a houseboat and would be gone several days. He also came back in his undershirt and seemed nervous and excited and when asked by Mrs. Sisk where the blue shirt was that he had worn off, he gave some excuse for having discarded it. He assisted Mrs. Sisk in getting supper, as if nothing had happened, and left that night. Mr. Sisk not returning, his wife became alarmed and said she believed Beshers had killed her husband and asked friends to go in search of him, but the body wasn't found until Monday. Beshers was foreman of the department of the plant a few miles this side of East Prairie, and Sisk kept a boarding house, and the men had been paid off that day. Sisk had \$68 with him when he went hunting, but when found this money was gone. When found Sisk had a squirrel in his pocket that he had shot, the squirrel also being partly eaten by the hogs.

It was learned that Beshers started up through Missouri and and Sheriff J. G. King and deputy sheriff of Mississippi county started in pursuit, catching him at a little station near Birds Point, Mo., just as he was attempting to board a Cotton Belt train and was carried back Monday to the vicinity where the crime was committed. He narrowly missed being lynched, the enraged residents of that section having gone so far as to procure a rope to hang him with, but were reasoned with and held off, and he was taken to the jail at Charleston, Mo., Mississippi, although the deed was committed in New Madrid county. It is reported that Beshers and Sisk had had domestic troubles some time previous but were apparently on good terms at the time of the crime and had gone squirrel hunting together. Sisk was about 40 years old and had a wife and two children, the family coming from Dawson Springs, Ky., to that vicinity, where they kept a boarding house. Beshers is a middle aged man.

A moving picture theatre is being installed at Yarrow, Mo., a hamlet with a population of less than seventy-five. It is believed that the movies will attract young men and women for miles around and make the village a community center. Yarrow boasts of being the smallest electric lighted village in the United States. It obtains its current from an old mill, which uses a dam built across the Chariton river in 1849.

Farmers in Southwest Kentucky counties have begun plowing in preparation for seeding the largest wheat acreage ever known in this section. The increase is due directly to the European war. They are netting upon the advice of millers, who are predicting \$2 wheat next year.

The speech of Vice-President Marshall last week announcing that no name but that of President Wilson will be presented to the Democratic convention of 1916 is taken as voicing the sentiments of the Democratic party in every state.

In Fuel Saved Each Winter!

How to get more for your money.
That's the rub.

There are ways and ways to economize. Some do without; some buy inferior articles.

Others make a better use of the money they spend.

And that is the kind of economy we want to talk about.

Did you ever figure out how much your heat cost you?

Do you know that 95 per cent of the ordinary heating stoves utilize only *half* of the heat that is in the coal?

Do you realize what this *wasted half* costs you?

Utilize that lost half and you will make a *real saving* and get more heat in the bargain.

Every stove with numerous air leaking joints wastes more available heat than the stove originally cost. That waste is the gas portion of your coal and the heat that goes up the chimney in the ordinary stove. Save the gas—mix it properly with air—burn it and you develop an immense amount of otherwise wasted heat.

But it requires a stove of special construction. It must be a stove that is scientifically and mechanically perfect. It must be a stove that has no air leaks.

That stove is—

Cole's Original Hot Blast Heater

The stove that absolutely controls your fire.

The stove that burns the gases wasted by other stoves.

The stove that radiates a constant and steady heat from either soft coal, hard coal or lignite.

The stove in which the fire is never out.

The stove that saves its cost in fuel each winter.

The stove that lets no gas or smoke escape into the room.

The stove that gives you every atom of heat that is in your coal.

In fact, the only stove that is absolutely efficient—perfect in construction—perfect in operation.

We sell it under a broad guarantee to do all these things.

COME IN AND SEE IT. YOU WILL BE DELIGHTED.

See the name "Cole's" on the feed door of each stove.

DON'T HURT YOUR LIVER WITH CALOMEL.

When your liver becomes torpid and sluggish, you can take calomel and whip it into action, but the calomel will leave your body weaker and sicker than ever. Calomel is a very powerful drug, a form of mercury, and need never to be used because there is a perfect remedy to take the place of calomel, that has all of calomel's good medicinal effects with none of its dangerous and uncertain follow-ups. Its name is Dodson's Liver Tonic. Hickman Drug Co. sell Dodson's Liver Tonic with the guarantee that if you don't find that it treats you better than calomel they will give you your money back with a smile. Dodson's Liver Tonic is a true tonic for the liver, purely vegetable, and with such a pleasant taste that it is no trouble to get children to take it. It is absolutely impossible for it to do anyone any harm.

Roper and family, of Hickman, visited James Roper and family Sunday.—Mrs. Albert Roper spent Friday night with her daughter, Mrs. Robert Johnson, of Cayce.

Already the advertising faker is abroad. He will be here by the scores within a short time. Hickman is easy picking. He can get \$100 to \$250 out of the community without any trouble—and always from the men who will not advertise in the newspapers because "advertising does not pay."

Lon Naylor, Jr. is now employed as assistant in the office of Kennedy's Insurance Agency. He succeeds Frank Smith, who plans to leave next week for Nashville, to resume his studies at Vanderbilt University. Frank will complete his work there this season.

NO NEWS OF IMPORTANCE.

A rich man who had been visit-
ing in Europe for about two
months returned to Chicago and
was met by his colored servant.
"Any news George?" said the
big man. "No sah, nothin' tall!"
replied George. "Strange nothin'
happened at all?" asked the
big man. "Nothin' worth men-
tionin'," the negro replied.

On the way home the man
asked "By the way George, how
is my bird dog?" "Well, sah,
that dog jest natcherly eat to
much burnt horse flesh an' he
died." "Died! how did he get
burnt horseflesh?" "Why when
yo' burn burnt yo' hoss was
burned and the dog eat some of
the burnt horseflesh an' died." "My
burn burnt and my horse
burned! Why George, how did
the burn catch fire?" "From
the sparks from the house, sah."
"From the house—whose house?"
"Your house, sah." "What!
My house on fire too?" "Yus,
sah yo' house is burned down."
"Great Scott! How did the fire
start?" "From the candles, sah."
"Candles? why we don't use
candles in the house, with elec-
tric lights everywhere." "Well
sah, they say the line curtains
caught fire from the candles and
set the house on fire." "Yes,
but where were the candles?"
"They were at the head of the
casket." "Great Lord, is some-
body dead?" "Yes, sah, your
mother-in-law is dead." "Why
George, she was as healthy as
could be when I left." "Yes
sah, she was healthy but she
jest natcherly died from the
shock." "Shock—what shock?"
"Why the shock she got when
your wife run away with the
chauffeur."

MONEY IN PEACHES.

Two farmers over in Indiana
recently sold their peach crop
for \$15,000 each—and they did
not even have to go to the trou-
ble and expense of gathering the
peaches. The buyers bought the
peaches on the trees. We have
not heard of many Kentucky farm-
ers selling five thousand dollar
peach crops this year. Kentucky
can produce just as good fruit as
Indiana or any other state, but
too many of our Kentucky farm-
ers are busy with cotton, corn and
tobacco and cannot see anything
in the orchard business.

Some of the farmers of this
section are preparing to "turn
under" their unpecked cotton
crop on account of low prices,
and sow wheat on the ground.
We doubt the wisdom of such pro-
cedure. It would be better, it
seems, to at least pick out as
much as possible before starting
the plow. "A half loaf is better
than none at all," and that would
not interfere with raising wheat.
Doubtless, wheat will again be a
good price next year. At any
rate it will be a safer gamble
than cotton, in view of existing
conditions. C. T. Bondurant and
other large planters are going to
try wheat on bottom land this
season. As wheat naturally
grows very rank on such soil, the
entire venture will be somewhat
in the nature of an experiment.
But the idea of planting other
crop than cotton is commendable,
primarily, because with a vari-
ety of crops one is not likely
to run up against the situation
which now confronts the exclusive
cotton growers.

HONOR ST. JOHN DEAD

Ancient Order of Hibernians Ded-
icate Monument.

Granite Cross in Memory of 45 Immi-
grants Lost on the Cohasset Coast
in the Storm of October
7, 1849.

Boston.—The state officials of the
A. O. H., and the Ladies' Auxiliary,
with Governor Walsh for the principal
speaker, dedicated a magnificent Cel-
tic cross of granite, which was erected
in Cohasset cemetery as a memorial
to 45 Irish immigrants who lost their
lives when the brig St. John was
wrecked on the ledge October 7, 1849.

The cross was unveiled by Miss
Teressa St. John, a relative of the only
survivor of the wreck still alive, and
7,000 members of the Order of Hiberni-
ana from all over Massachusetts at-
tended the ceremony.

The words "St. John" occupy an
oddy prominent place in the story
of this memorial, for it was brig St.
John, bound for St. John, N. H., which
was wrecked, one of the survivors, a
woman, married Mr. St. John of Co-
hasset, and it is their descendant, Miss
St. John, who unveiled the memorial.

October 7, 1849, was a Sunday, and
one of the worst storms recorded in
the history of Cohasset was blowing
from the eastward. Two vessels had
anchored inside Minot's Lodge for
shelter, but the wind blew so hard
that one of them, the brig Kathleen,
began to drag her anchors just before
daylight. She came ashore a little
to the southward, and the life-savers
went to her assistance. While they
were away the St. John also dragged
and came on the beach.

She was from Galway, Ireland, with
a passenger list of 99, many of them
children. She had 22 of a crew. Her
passengers had left Ireland in flight
from the famine, which began in 1845,
and from which the country was not
yet recovering.

The first wave that came aboard
after the brig struck tore scores of
people from her deck, and in 15 min-
utes all were gone. Here and there
one would drift ashore, clinging to a
bit of wreckage, and Charles Studley
of Cohasset became the hero of the
day by going repeatedly into the fu-
rious water to help these survivors to
the beach.

All the crew except the first officer
were saved.

Only 27 bodies came ashore, and
these were buried in one big grave
in a corner of the Cohasset cemetery,
a grave 20 feet long, 9 feet broad and
4 feet deep.

Credit for starting the movement
for a memorial is due to Michael
Sweeney of Cohasset, who took up
the work because his father's dying
t injunction commanded it. His interest-

in turn placed the idea before State
President Cannon.

With these men as a committee of
arrangements, have been associated
Rev. James J. Clutick of Hyde Park,
John Donovan, Patrick Murphy and
Michael Sweeney.

The memorial is in the form of a
Celtic cross, 19 feet in height. It was
designed by Francis J. Markham of
Quincy, and was cut and erected by
Patrick J. Tagney of Quincy. The
memorial consists of a base, a sub-
base and a die surmounted by the
cross, elaborately carved on front and
back. On the front of the pedestal
is a shield containing the emblem
of the A. O. H. On the back is a
shield with the emblem of the Ladies'
Auxiliary to the A. O. H. Below the
shield, on the front die, is carved the
following inscription:

"This cross was erected and dedi-
cated May 30, 1914, by the A. O. H.,
and the L. A. A. O. H., of Massachu-
setts, to mark the final resting place
of about 45 Irish emigrants from a
total company of 99 who lost their
lives on Grampus ledge, off Cohasset,
October 7, 1849, in the wreck of the
brig St. John, from Galway, Ireland

5 Women Avoid Operations

For years we have been stating in the newspapers of the
country that a great many women have escaped serious op-
erations by taking Lydia E. Pinkham's Vegetable Com-
pound, and it is true.

We are permitted to publish in this announcement
extracts from the letters of five women. All have been
recently received unsolicited. Could any evidence be
more convincing?

1. HOBOKEN, ME.—"I had pains in both sides and such a soreness
I could scarcely straighten up at times. My back ached and I
was so nervous I could not sleep, and I thought I never would be
any better until I submitted to an operation, but I commenced taking
Lydia E. Pinkham's Vegetable Compound and soon felt like a new
woman."—Mrs. HAYWARD SOWERS, Hodgdon, Me.

2. CHARLOTTE, N. C.—"I was in bad health for two years, with
pains in both sides and was very nervous. I had a growth
which the doctor said was a tumor, and I never would get well unless
I had an operation. A friend advised me to take Lydia E. Pink-
ham's Vegetable Compound, and I gladly say that I am now enjoying
fine health."—Mrs. ROSA SIMS, 16 Winona St., Charlotte, N. C.

3. HANOVER, PA.—"The doctor advised a severe operation, but my
husband got me Lydia E. Pinkham's Vegetable Compound and I
experienced great relief in a short time. Now I feel like a new person
and can do a hard day's work and not mind it."—Mrs. ADA WILT,
190 Stock St., Hanover, Pa.

4. DECATUR, ILL.—"I was sick in bed and three of the best phys-
icians said I would have to be taken to the hospital for an opera-
tion as I had something growing in my left side. I refused to sub-
mit to the operation and took Lydia E. Pinkham's Vegetable Com-
pound—and it worked a miracle in my case, and I tell other women
what it has done for me."—Mrs. LAURA A. GRISWOLD, 2300 Blk. East
William Street, Decatur, Ill.

5. CLEVELAND, OHIO.—"I was very irregular and for several years
my side pained me so that I expected to have to undergo an op-
eration. Doctors said they knew of nothing that
would help me. I took Lydia E. Pinkham's Vege-
table Compound and I became regular and free
from pain. I am thankful for such a good medi-
cine and will always give it the highest praise."—
Mrs. C. H. GIFFITH, 7205 Madison Ave., Cleveland, O.

FIFTEEN COUNTIES VOTE ON PROHIBITION.

The prohibition forces in the
state are waging a fierce battle
to make the state dryer than it
is at present. At present there
are 97 dry counties in the state
with 23 wet ones. Fifteen of the
twenty-seven wet ones will have
an election either on September
21 or September 28, and a num-
ber of them are figuring to vote
out liquor. The figures will be
surprising to many who have the
idea that Kentucky was a whis-
key state.

The last legislature made it
possible for 25 per cent of the vot-
ers of any county to call an e-
lection, whereas it was formerly
necessary to have 25 per cent of
the voters of every precinct.
There is unusual interest in the
elections, owing to the impor-
tance of the cities and towns
where the fights are being waged.
A hard option fight is the
meanest on earth and hard feel-
ing is bound to result. In most
instances it is a fight to the fin-
ish.

Elections are scheduled for
September 21 in the following
counties in which the chief cities
are given:

Christian, Hopkinsville; Me-
tuchen, Paducah; Daviess,
Dwight.

For September 28:

Henderson, Henderson; Bell,
Middleboro; Boone, Burlington;
Mason, Maysville; Scott, George-
town; Bourbon, Paris; Montgom-
ery, Mt. Sterling; Clark, Winchester;
Fayette, Lexington; Ander-
son, Lawrenceburg; Shelby, Shel-
byville.

The counties which are still wet
which the drys have left an-
ticipated are:

Jefferson, Louisville; Kenton,
Covington; Nelson, Bardonia;
Marion, Lebanon; Franklin,
Frankfort; Meade, Brandenburg;
Campbell, Newport; Boyd, Ash-
land.

BIDS WANTED.

At their last meeting, the City
Council passed an ordinance to
build a new wooden bridge ac-
ross the hollow back of the R.
M. Isler property. Said bridge
to be built by contract, said con-
tract let to the lowest bidder.
All bids to be turned in to the
Mayor on or before Sept. 18,
1914.

JOHN PYLE,
City Clerk.

Union City are making arrange-
ments to establish a cotton bond

MORE NAMES ADDED
TO TRUCK-GROWING LIST.

Several new names are added this week to the list of truck growers, who have pledged themselves to raise truck and berries for the 1915 market, with Hickman as the shipping point. This is a modest effort has been made to secure new names since our last report. Farmers seen so far have been enthusiastic regarding the truck growing movement, with one exception. This gentleman will sign up when given assurance that we are to have a ready market. He cited us to the movement here some ten years ago, a long similar lines when for some reason, according to his recollection, there was no market. So far as the present undertaking is concerned, a market is the least of our troubles. The writer made a personal investigation of this matter and found city commission merchants and wholesalers already writing and wiring our committee for a chance to buy our products. To further substantiate this statement, we shall be glad to show any one, who is the leastwise doubtful, letters from dealers in St. Louis, Chicago, Memphis, Cincinnati, Louisville, asking for consideration when we are ready to market our stuff. So this should satisfactorily dispose of the question of marketing. Arrangements have also been made for securing hampers, baskets, crates, etc., at wholesale cost.

In short, the league is behind the truck movement and will leave nothing undone in the way of co-operation with our farmers and other matters which are calculated to facilitate the undertaking.

We can and will make a success of this thing. All we need is the truck grown. If you are interested and would like to know further details, ask any member of the Business League.

High and Low Cotton Prices Since 1860

Cotton and cotton prices at this time are matters of more than passing interest in this section. In view of this fact, the Courier prints below an official table of bales raised and prices paid from 1860 to the last report which should prove interesting to all cotton raisers. How many of us know off-hand what is the highest price ever paid for cotton—the lowest—the largest and smallest yield recorded in the United States? The following are U. S. reports based on the prices paid for upland middling:

RESOLUTIONS.

Whereas God in His infinite love and wisdom has seen fit to call our beloved friend, James E. Frasier, to his heavenly home, and that while we do not question his divine decree it is but natural for us to indulge in those feelings of grief and sadness with which the irreparable loss of our brother has impressed us.

Resolved: In the death of Brother Frasier, this Sunday School has lost a faithful teacher, ever conscientious and pains taking in his work, exemplifying the truths he taught in his daily life.

That we praise God for his christian life, and for the abundant fruitage of the many years through which he labored in his vineyard, and for his abiding and unflinching faith in God and His word, his deep spirituality and untiring zeal.

That while we humbly bow in submission to the will of the Almighty, we do most sincerely lament the death of our friend, and our hearts go out in deepest sympathy to his family in their bereavement.

That a copy of these resolutions be sent to his family, to the Hickman Courier and that they be recorded in the minutes of our Sunday School.

How To Give Quinine To Children.

FERRELIN is the trade-mark name given to an Improved Quinine. It is a Tasteless Syrup, pleasant to take and does not disturb the stomach. Children take it and never know it is Quinine. Also especially adapted to adults who cannot take ordinary Quinine. Does not nauseate nor cause nervousness nor ringing in the head. Try it the next time you need Quinine for any purpose. Ask for 2 ounce original package. The name FERRELIN is blown in bottle. 25 cents.

Len Shaw and family and Miss Isabella Elliott, of Mayfield, motored over Sunday and spent the day with his mother, Mrs. Fannie Shaw.

It is suspected that some of the advances in food prices are not due so much to the war as to the desire of dealers to acquire a 1915 automobile.
